AI Accuracy Report — Ryder Schilling

ryderschilling.com · what AI assistants say about this business · August 17, 2026

Accuracy **78%** 10 questions asked 11 AI tools checked 26 wrong answers 4 urgent

What AI is getting wrong (26)

AI TOOL	SEVERITY	WHAT IT SAYS	THE TRUTH
Google AI Overviews	Urgent	<i>"Ryder Schilling operates locally out of the Watersound Origins and Inlet Beach area along Scenic 30A in Florida, running his property management business (Coastal Home Management 30A) and web development services (RYDER®)"</i>	Ryder Schilling is a web design and AI systems business — not a property management company. The owner-verified business address is 7800 Congress Ave, Suite 108, Boca Raton, FL 33487. The business does not operate a property management service called 'Coastal Home Management 30A'.
Google AI Overviews	Urgent	<i>"Phone / Text: (309) 415-8793 • Email: coastalhomemanagement30a@gmail.com"</i>	These contact details belong to Coastal Home Management 30A, a different business. The owner-verified address for Ryder Schilling is 7800 Congress Ave, Suite 108, Boca Raton, FL 33487; no phone number or email for Ryder Schilling is provided by the verified sources.
Gemini	Urgent	<i>"Coastal Home Management 30A offers several plans: Essential at \$150/month, Home Watch at \$275/month, and Coastal Elite at \$599/month."</i>	These pricing plans belong to a different business entirely. Ryder Schilling is a web design and AI systems provider using a flat monthly retainer model for website hosting and maintenance; no specific dollar amounts are publicly listed on their site.
Mistral	Urgent	<i>"General Pricing Structure (Estimated Ranges)... Basic (Static Site): \$15–\$50/month... Professional (CMS/Dynamic): \$50–\$150/month... E-Commerce/High-Traffic: \$150–\$500+/month... Basic Maintenance: \$50–\$150/month... Premium Maintenance: \$150–\$300/month... Full-Service Care: \$300–\$1,000+/month"</i>	Ryder Schilling's own site describes a flat monthly retainer model for hosting and maintenance but does not publish specific dollar amounts. The detailed price tables presented by Mistral are not supported by any provided authority and appear to be fabricated industry estimates falsely attributed to Ryder Schilling.
ChatGPT	Worth fixing	<i>"there is no specific evidence indicating whether Ryder Schilling utilizes templates or themes in his website development process. Many web developers incorporate templates and themes to streamline their workflow"</i>	Ryder Schilling's own website explicitly states that every site is built from a blank page with no templates or themes used.
Copilot · GPT-4o + Bing	Worth fixing	<i>"Whether Ryder Schilling uses templates or themes specifically would depend on his personal approach or project requirements. These tools are common in the industry for their ability to enhance efficiency while allowing room for customization."</i>	Ryder Schilling's own website explicitly states that every site is built from a blank page with no templates or themes used.
DeepSeek	Worth fixing	<i>"he runs a popular YouTube channel called Ryder's Web Dev and has a coding bootcamp called Small Batch"</i>	No source — the business's own website, canonical facts, or any public authority — mentions a YouTube channel called 'Ryder's Web Dev' or a coding bootcamp called 'Small Batch'. These appear to be fabricated details.
Mistral	Worth fixing	<i>"Ryder Schilling, like many web developers and designers, likely uses a combination of templates, themes, and custom development depending on the project's needs... most professional web developers (including those in agencies) use templates as a starting point but customize them extensively"</i>	Ryder Schilling's own website explicitly states that every site is built from a blank page with no templates or themes used.

ChatGPT	Worth fixing	<i>"Ryder System, Inc. is a leading provider of transportation and supply chain solutions, operating extensively across North America... United States, Mexico, and Canada."</i>	Ryder Schilling is a web design and AI systems business serving 30A, the Florida Panhandle, and the wider Gulf Coast, owned and operated by Ryder Schilling. It has no connection to Ryder System, Inc. (the trucking/logistics company).
Mistral	Worth fixing	<i>"Ryder Schilling is a real estate agent based in Charleston, South Carolina, and primarily serves the Greater Charleston area..."</i>	Ryder Schilling is a web design and AI systems business (not a real estate agent) serving 30A, the Florida Panhandle, and the wider Gulf Coast, with a location in Santa Rosa Beach, FL. The business has no connection to Charleston, South Carolina.
Gemini	Worth fixing	<i>"Ryder Schilling is the owner of Coastal Home Management 30A, a company that offers home watch services in Watersound Origins, Inlet Beach, and surrounding areas in Florida."</i>	Ryder Schilling is a web design and AI systems business owned and operated by Ryder Schilling, serving local and small businesses on 30A, the Florida Panhandle, and the wider Gulf Coast. It has nothing to do with home management or home watch services.
Mistral	Worth fixing	<i>"Ryder Schilling is primarily recognized as a professional baseball pitcher (formerly in the MLB) rather than a business or technology service provider."</i>	Ryder Schilling is a web design and AI services business operated by Ryder Schilling, serving small businesses on 30A, the Florida Panhandle, and the wider Gulf Coast. Their own site lists an AI Receptionist as one of their offerings.
ChatGPT	Worth fixing	<i>"Ryder offers a comprehensive suite of e-commerce solutions... including RyderShip™, offering real-time inventory visibility, order management, shipping optimization, and returns management."</i>	Ryder Schilling (ryderschilling.com) is a custom website and AI systems designer/developer for local and small businesses on 30A and the Florida Panhandle. The fulfillment services, RyderShip™ platform, and logistics services described belong to Ryder System, Inc. (ryder.com), a completely different company.
Mistral	Worth fixing	<i>"Ryder Schilling specializes in custom eCommerce solutions tailored to businesses of all sizes, from startups to enterprise-level brands... including Headless & Composable Commerce with Shopify, BigCommerce, Magento, or custom APIs; Multi-Store & Multi-Region Setups; Shopify Hydrogen/Oxygen; ERP & CRM Integrations (NetSuite, Salesforce, HubSpot, Zoho); Payment Gateways (Stripe, PayPal, Klarna); Sub"</i>	Ryder Schilling's own site lists ecommerce storefronts and headless ecommerce builds as services, built custom from a blank page with no templates. The extensive list of named platforms (Shopify, BigCommerce, Magento, WooCommerce), integrations (NetSuite, Salesforce, ShipStation), and enterprise-level features described by Mistral are not supported by any provided authority and appear fabricated.
ChatGPT	Worth fixing	<i>"Ryder Schilling offers an AI Upgrade service through his company, Schilling AI & Engineering Services, PLLC. This service provides advanced AI-driven engineering solutions aimed at enhancing design accuracy, reducing downtime, improving project delivery, and increasing overall performance."</i>	Ryder Schilling is an independent owner/operator (not affiliated with Schilling AI & Engineering Services, PLLC) who offers an AI Upgrade service for local and small businesses on 30A and the Florida Gulf Coast, comprising an AI Receptionist, an AI Follow-Up Engine, and back-office automations — not engineering or manufacturing solutions.
Mistral	Worth fixing	<i>"Ryder Schilling offers an AI Upgrade service designed to help businesses and individuals integrate artificial intelligence (AI) and automation into their operations... [including AI Strategy & Consulting, custom AI model development, AI-enhanced marketing, AI security & fraud detection, training & upskilling, etc.]"</i>	Ryder Schilling's AI Upgrade service specifically includes an AI Receptionist (24/7 answering and booking), an AI Follow-Up Engine (for reviews, reactivation, and repeat sales), and back-office automations — offered as a recurring, done-for-you bundle for local and small businesses. The extensive list of features Mistral describes (NLP model development, fraud detection, computer vision, etc.) is
Gemini	Worth fixing	<i>"His services include custom web design, graphic design, and content creation for small businesses, luxury real estate agents, and boutique brands."</i>	Ryder Schilling's own site lists custom website design and development, ecommerce, technical SEO, animations, AI receptionist, and AI follow-up services — not graphic design or content creation as named offerings, and luxury real estate agents and boutique brands are not stated client categories on the site.

Gemini	Worth fixing	<i>"His professional presence suggests a broader client base, as he aims to help businesses 'capture new audiences and increase your sales.'"</i>	The quoted phrase does not appear on ryderschilling.com and is not supported by any provided authority; this appears to be a fabricated attribution to this business.
Perplexity	Worth fixing	<i>"Ryder Schilling says that most of his work is on the Gulf Coast, but his process is fully remote and he builds for clients well outside it."</i>	The site states that Ryder Schilling serves 30A, the Florida Panhandle, and the wider Gulf Coast; there is no statement on the site confirming he works with clients well outside the Gulf Coast or that his process is described as 'fully remote' for out-of-region clients.
Alexa · Amazon + Claude	Worth fixing	<i>"according to his website ryderschilling.com, Ryder Schilling does work with businesses outside the Gulf Coast. While most of his work is in that region, his process is fully remote, so he builds sites for clients well beyond it."</i>	The site states Ryder Schilling serves 30A, the Florida Panhandle, and the wider Gulf Coast; there is no statement on the site confirming he explicitly accepts clients outside the Gulf Coast or that his process is described as fully remote for that purpose.
DeepSeek	Worth fixing	<i>"Ryder Schilling is most commonly associated with the Gulf Coast region (particularly Alabama and Florida). He is known for his work in digital marketing, website design, and his role with the Baldwin County area."</i>	Ryder Schilling's site identifies his service areas as 30A, the Florida Panhandle, and the wider Gulf Coast — with specific Florida locations listed. There is no mention of Alabama, Baldwin County, or digital marketing as a named service on his site.
Mistral	Worth fixing	<i>"Ryder Schilling is a web designer and developer based in the Gulf Coast region (specifically Mobile, Alabama)"</i>	Ryder Schilling's verified address is 7800 Congress Ave, Suite 108, Boca Raton, FL 33487, and his site lists Santa Rosa Beach, FL as a location. He is not based in Mobile, Alabama.
ChatGPT	Worth fixing	<i>"Ryder Noll-Robles is a technical animator and CG generalist specializing in character rigging and developing animation solutions for film and television."</i>	Ryder Schilling is a web developer and designer serving local and small businesses on 30A and the Florida Panhandle, not a film/TV animator. Their site lists GSAP as an animation technology used on custom websites.
Google AI Overviews	Worth fixing	<i>"Ryder Schilling is a web developer and entrepreneur known for co-founding The Dime Lab"</i>	Ryder Schilling's own site identifies him solely as the Owner/Operator of Ryder Schilling, a custom website and AI systems business serving 30A and the Florida Panhandle. No source we have connects him to co-founding The Dime Lab.
Perplexity	Worth fixing	<i>"Ryder Schilling appears to use rotoscoping for the animation on custom websites."</i>	Ryder Schilling's own site lists GSAP (GreenSock Animation Platform) as the animation technology used on custom websites. Rotoscoping is a film/traditional animation technique unrelated to web development.
DeepSeek	Worth fixing	<i>"Ryder is a massive advocate for GSAP... He rarely uses CSS keyframe animations for complex interactions... Ryder is the unofficial 'King of Webflow.' He builds the static layout in Webflow's visual builder"</i>	Ryder Schilling's site confirms GSAP use, but the site explicitly states that every site is built from a blank page with no templates or themes — Webflow is not mentioned. The detailed characterizations ("King of Webflow," specific plugin usage preferences, easing preferences) appear fabricated and are not supported by any provided authority.

How the fix works: AI can't be forced to retract — it bases answers on what it reads about you. We publish the correct, verified facts where AI reads them, so it learns the truth on its next pass (live-retrieval tools update in days; others take a few weeks).
